## PROFILE

As a recent BrainStation graduate with an interest and background in the culinary industry, my dream is to help bring the world together and make an impact in everyone's everyday lives. I'm very excited to work in the field of Web Development because it will allow me to use my experience in communication to potentially bring the team together, and make everyone feel a part of a collaborative effort.

## SKILLS

C++, Java, HTML, CSS, JavaScript, PHP, Shell, Perl, JSON, AWK, Node, React, Express, MySQL, Agile Development, Document Object Model (DOM) APIs, Web API's, User Authentication, OAuth, Heroku, Github, Jest

## PROJECTS

---

### Programmer | Google Industry Project

Nov 30, 2022 - Dec 1, 2022, Hackathon

- Developed a mobile app focused on Health and Fitness for paraplegics using React.js, HTML, CSS, Github
- Worked in a team of 7 participants in developing, an application that is designed to leverage digital solutions to provide equal access to people with disabilities to resources and information

### Programmer | CAPSTONE Project

Nov 23, 2022 - Dec 14, 2022, School

- Designed and developed a volleyball website using React.js, HTML, CSS, MySQL and Github.
- Developed a website focused on giving all volleyball players an all-in-one access to coaching, locations to play at, and online resources for gameplay mechanics.

## EXPERIENCE

---

### Prep Supervisor | Brownies Chicken and Seafood

FEB 2022 - Present, Vancouver, BC

- Organized workflow and ensured that employees understand their duties or delegated tasks
- Monitored employee's productivity and provided constructive feedback and coaching
